Experience

Lead UX / UI Designer

FLEXIS S.A.S - RENAULT GROUP — sep 2025 - Present

Designed Flexis's digital ecosystem from scratch: a web-based fleet management platform and a driver app (Android and Android Auto).

- **Led a team of two designers at the start of the project:** assigning work, running design reviews and keeping deliverables consistent.
- **Designed 15 modules of the web platform** for Fleet Managers and Fleet Advisors, structuring telematics data from the fleet overview down to the next action.
- **Designed the driver app:** driver–vehicle pairing (QR code, VIN), video-based check-in/check-out and delivery routes optimized for battery range.
- **Built a shared design system for both products from scratch:** components, design tokens, light/dark modes and a custom SVG icon set for fleet use cases.
- **Ran interviews with business experts,** competitive benchmarking and testing with 10 beta testers on the web platform, working closely with PMs, POs and developers.
- **Brought generative AI into the design workflow (Claude, Claude Design)** for ideation, benchmark analysis and low-fidelity mockups, exploring more options before moving to high fidelity.

Front-end Developer | UI Designer

EURO-INFORMATION DÉVELOPPEMENT — Mar 2021 – Apr 2025 **through - ABYLSEN**

Worked across all Crédit Mutuel group websites, in a team managing more than 100 brand guidelines.

- **Implemented and maintained brand guidelines and UI components in HTML, CSS (Less) and JavaScript** across the group's websites and intranet, ensuring consistency between brands.
- **Redesigned the CSS framework behind the Crédit Mutuel and CIC online banking area:** 20+ components redesigned and built from the new public website guidelines.
- **Designed and maintained an internal CSS framework,** making components easier to reuse and keeping them aligned with the group's brand guidelines.
- **Organized user testing,** analyzed feedback and refined interfaces to improve user journeys.
- **Led RGAA compliance (the French accessibility standard):** identifying accessibility issues and addressing them in both design and development.
- **Managed UI integration projects** from planning to production release, coordinating with project and technical teams.

Front-end Developer | UI Designer

ATLANTIS SOFTWARE — Jan 2021 – Mar 2021

- **Created a new visual identity and the foundations of a design system for a B2B** management application, improving interface consistency and scalability.
- Designed and built interfaces with Angular, HTML and Sass.

Front-end Developer · Final-year internship

WORLDLINE — Feb 2020 – Aug 2020

- **Designed and developed a mapping tool in JavaScript (OpenLayers)** for the portal of SHOM, the French Navy's Hydrographic and Oceanographic Service, making geographic data easier to view and manipulate.
- Created wireframes and interface prototypes in Figma.

Earlier experience

Creative Designer

Marca Registrada — 2018 – 2019

Visual identities, print materials, motion design and website redesigns.

Digital Designer

OWAK Digital Agency — 2017 – 2018

Web interfaces and digital content for Johnson & Johnson (Colombia, Ecuador, Peru) and Reckitt Benckiser.

karolg.

Product Designer (UX/UI) with nearly 10 years of design experience, including almost 7 in UX/UI and front-end development. I work across the full process, from understanding user and business needs to prototyping and close collaboration with development teams, with a strong focus on design systems, accessibility (WCAG/RGAA) and consistent user journeys.

My combined design and front-end background lets me design interfaces that are technically realistic, especially for complex, data-heavy B2B products.

EDUCATION

2012 - 2017
Degree in Interactive Media Design
Universidad Icesi, Colombia

2019 - 2020
Master's degree in Computer Science, Multimedia Design and Development
Université Lumière Lyon 2, France

Continuing education

2025
Agile Foundations
LinkedIn Learning

2026
AI for Product Designers
Maven — Xinran Ma
IA générative, prototypage & workflows de Product Design.
